

LESSON 3: Activity Sheet 5**Definition Table**

Use the table below to assess your knowledge and understanding of the words that are often used when discussing climate change.

Task:

- In the middle column write down your definition or understanding of the words that appear in the left-hand column.
- When you have completed all the words you can, ask your teacher for Activity Sheet 6.
- Sort the meanings from the definition envelope and place them in the right-hand column next to your own definitions.
- Talk in a small group about the similarities and differences between your definitions and the dictionary definitions.

Words	My Definition	Dictionary Definition
Climate change		
Climate		
Greenhouse effect		
Greenhouse gas		
Global warming		
Atmosphere		
Enhanced greenhouse effect		
Weather		
Carbon emissions
