Activity –LO1

Global Goals and Climate Change

The Sustainable Development Goals (SDGs)

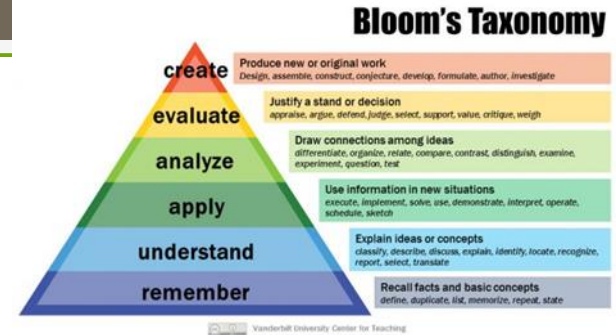

The Sustainable Development Goals (SDGs)

- The **SDGs** are the new global goals for **eradicating poverty and working towards sustainable development through global partnership** that is people-centred.
- The 17 goals have 169 targets that need to be achieved by 2030.
- These goals replace the Millennium Development Goals (MDGs).
- Many of the goals implicitly rely on climate action to reach their targets, and Goal 13 is specifically about climate change: **“Take urgent action to combat climate change and its impacts”**

Discussion

- What are the SDGs?
- What major global issues do the goals address?
- What goals and targets specifically mention climate change?
- What other goals need action on climate change to successfully reach their targets?

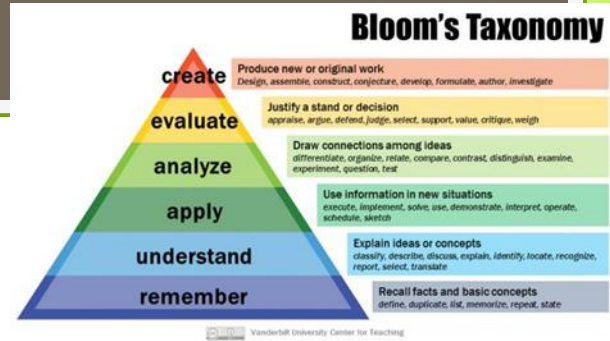

Defend your SDG!

- You have to be able to explain how your SDG links to climate change
- Prep-you can discuss with your table-be ready to present (if asked!)

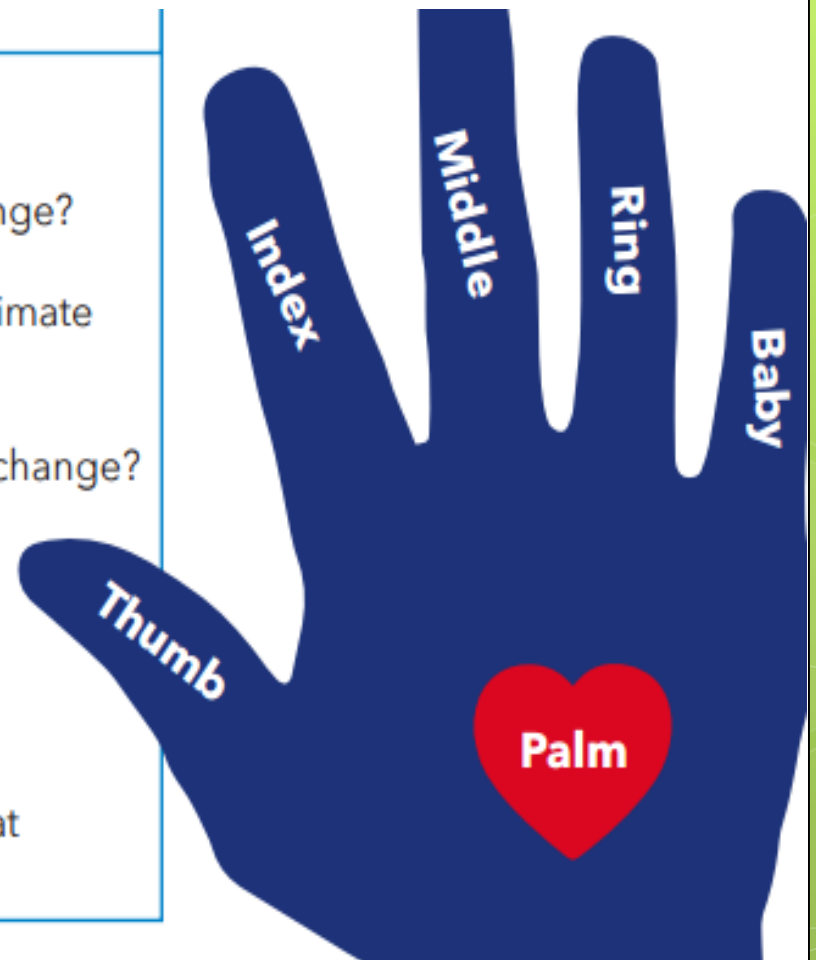

Activity 2-LO2

Me & Climate Change

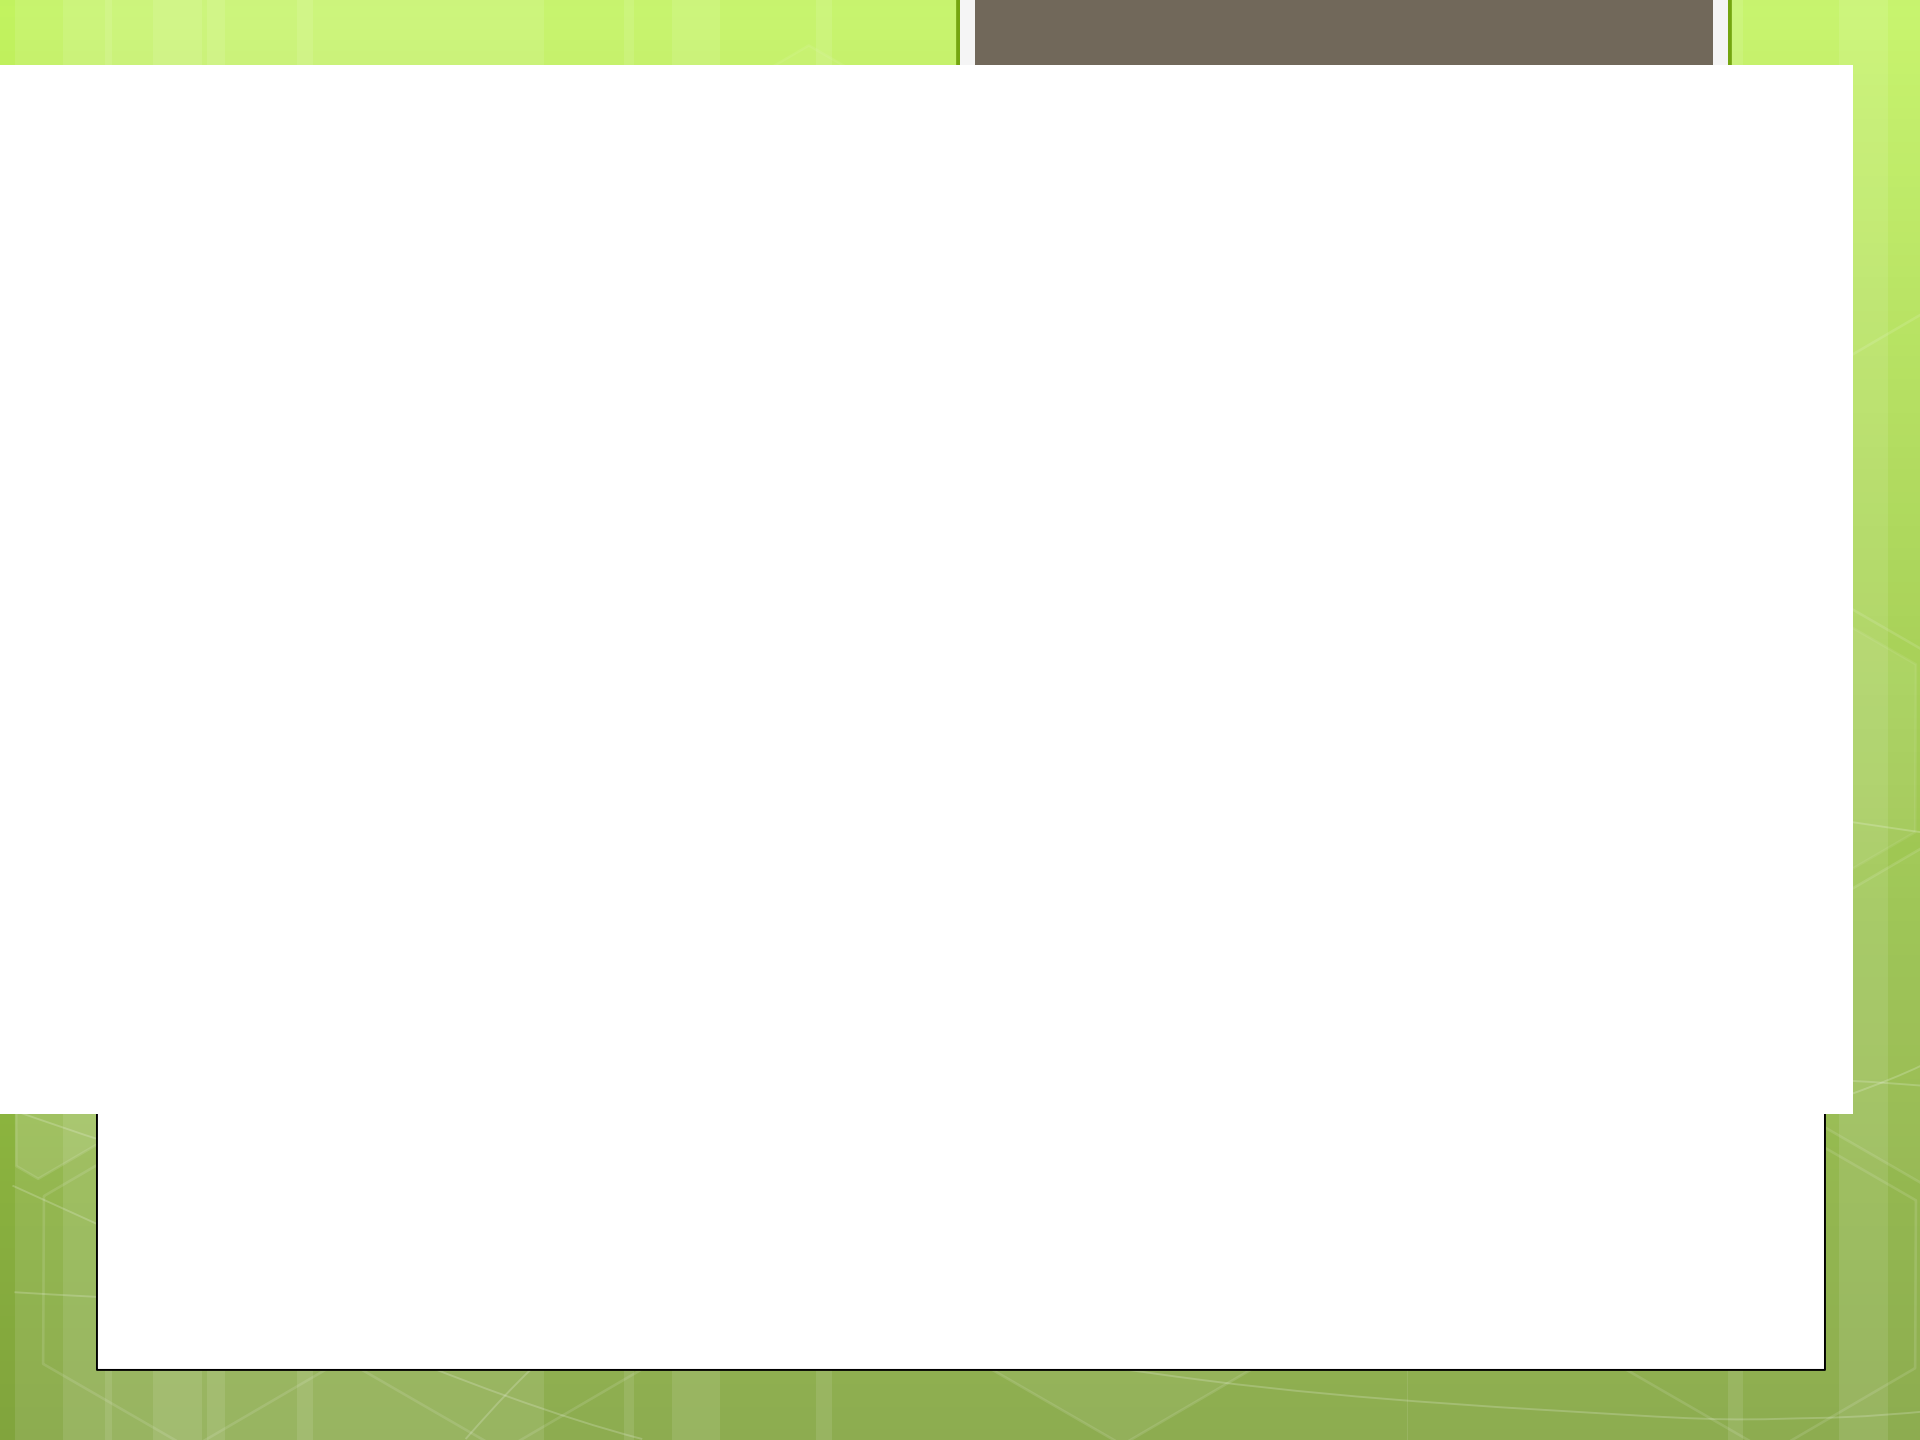

- This activity is about connecting knowledge on climate change to empathy and action.
- The future of our world is in our hands because each of us has the power to act and affect change.
- **Trace your hand on a piece of paper OR use the sheet provided**
- **Write in the answers** to the questions about the video.
